Sperry's Goes 100% Green for Chowderfest!

Chef Dale Miller and his team have created a tasty and "green" solution for eliminating all plastic and styrofoam from their Chowderfest entry. Sperry's **Lobster, Roasted Corn and Chorizo** chowder will be served in Sperry's signature Popover; accompanied by a homemade rosemary cracker spoon created by Sperry's Pastry Chef Melissa Thwaites. "The amount of prep time needed to create our homemade edible, earth-friendly bowls and spoons is certainly much longer than buying spoons and bowls; but when co-owner Christel MacLean gave us this sustainable challenge we welcomed it," says Chef Dale Miller.

Sperry's chowder will be served from 11am-4pm as part of the Saratoga Convention & Tourism Bureau's 12th Annual Chowderfest. Sperry's Bar will also be open during this time. Sperry's is located at 301/2 Caroline Street, Saratoga Springs.
